CRATE
CDS Rapid-Development and Test Environment

Streaming and File Hosting Services for Simulation

CRATE provides an innovative segue into the National Cross Domain Strategy and Management Office (NCDSMO) compliant environment, allowing engineering teams to concentrate on their technology rather than struggle with their infrastructure, while reducing delivery time and expenses.

CRATE streaming and file hosting services for simulation purposes are designed for Department of Defense (DoD) Motion Imagery Standards Board (MISB) and North Atlantic Treaty Organization Standardization Agreement (NATO STANAG) compliance.

CRATE Features:

- Odyssey-hosted, secure Infrastructure as a Service (IaaS)
- UNCLASS, Emulated Cross-Domain Environment (does not fall under National Security Agency (NSA) requirements)
- Seamless migration into Odyssey locally hosted NCDSMO Software-in-the-Loop (SIL)
- Firewalled customer-specific development partitions
- Extension to classified dev-deploy under NSA Review, pending approval
- Encrypted Remote Connections
- Development, testing, and productivity tools

Odyssey is a leading provider of management, analytical, and technical support services for government and private-sector customers. Established in 1997, Odyssey delivers innovative solutions in response to your complex and challenging requirements.
SYSTEM SOLUTIONS GROUP

Developing Mission-Critical Hardware, Software, and Integration Solutions for the Warfighter

Bring your challenge to Odyssey's dedicated team of hardware, software, and integration professionals... an agile team backed by a robust CMMC-certified DevSecOps infrastructure bringing decades of experience designing, developing, and fielding systems at home and around the globe.

> Requirements development and system design
> Rapid prototyping to final, field-ready solution
> Discipline engineering and workflow

> Pre-build foundational components
> Baked-in enforcement of cybersecurity / IA
> Reduction in time and cost
