

PWASS

Persistent Wide-Area Surveillance System

High-Impact, Multi-platform, Operations, Intelligence & Security Program

PWASS is an integrated “system of systems” architecture often comprised of aerostats, Unmanned Aerial Vehicles (UAV), fixed and mobile towers, ground-based sensors, and weapons systems operated from local, regional, and national-level operations centers.

Our team has over twenty years of hands-on experience working with customers to design, deploy, train, and maintain wide-area surveillance and security programs tailored to their specific needs and challenges.

PWASS Features:

- Force protection and base security
- Public safety and security
- Critical infrastructure protection
- High-visibility deterrence
- Find, fix, and finish weaponized missions
- Change detection and pattern of life
- Intelligence collection and analysis
